
Release Overview – FileFinder 11.47

Here's a snapshot of what we've delivered in this release:

- "Salary Is Blank" option added to the Person Search screen
- Added the ability to search on Phone numbers with spaces
- "LinkedIn URL" field added to Web Research Person window
- FileFinder internal browser has been updated to the latest version
- "Bulk Import" text changed to "Quick Import" on Web Research
- Fixed an issue with edit log progress reverting when it has been added using the candidate notes progress field
- Fixed an issue when using Import and using Save and Close not opening the person record automatically
- Fixed an issue with attachments not showing in Logs after attaching from the 'Same Zone' area
- Fixed an issue with Assignment Tasks infobox freezing FileFinder

New Functionality/Features and Enhancements

- **"Salary Is Blank" option added to the Person Search screen**
 - Allows users to search on any salaries that are blank or have no values for work histories

- The FileFinder internal browser has been updated to the latest version
 - The latest version includes fixes and performance improvements
- "Bulk Import" text changed to "Quick Import" on Web Research

Bug Fixes

Edit log progress reverting when it has been added using the candidate notes progress field

Go to the Assignment Candidate tab
 Add a new Activity log with a progress code
 Double-click that candidate on the Candidate tab and change the progress code to something else
 Now go to the Log tab and click on the log created in step two
 Click on Edit Log for that log and make a change and save the log

The Progress code for that candidate has now reverted back to the original one that was added

This issue has been fixed

When using Import and using Save and Close it does open the person record

Open Import
 Import any record
 Click Save and Close
 It does not open the person record automatically

This issue has been fixed

Attachments not showing in Logs after attaching from the 'Same Zone' area

Create a New Activity e.g. Email
 Click Attachments and select 'Same Zone'
 Add an attachment from either the Company or Person record
 Send the Email or Save the Log
 If you go to the Log tab and open the Log, the attachment box is blank and the attachment is not shown

This issue has been fixed

Assignment Tasks infobox freezing FileFinder

When running the Assignment Tasks infobox from the FileFinder Homepage, FileFinder would freeze and the MT CPU usage would go to 100%

This issue has been fixed

Crash when removing progress code from the Edit Log screen

Go the Assignment Log tab
 Edit a Log with Progress
 Remove the current progress
 Save
 FileFinder crashes

This issue has been fixed

Edit Log – Progress Code drop-down still shows and is blank when there was no progress initially added

This issue has been fixed

Caption on user-defined value not being updated on Search screen

Go to Admin

Entity Customization

Update Caption name for a field

It changes on the record field but not on the search screen

This issue has been fixed

Quick Look-Up from Browser toolbar does not order results

When using the Quick Look-Up on the Browser toolbar it does not order the result set (default: Last Name) when viewing the results

This issue has been fixed
